The Life of John 10:10

The Study & Life of Justice Fellowship International College

JFI is the voice of one speaking from the Throne of God with an Apostolic voice and a clear sound to who-so-ever will can look. This is the voice of the Lord in the Land declaring the finished work of Christ. This is the one new man that creation has been waiting for. It is the 42nd Generation both Head and Body. The Christ in the Earth. They are the manifested Glory of God with one voice.

The Eternal Purpose of God

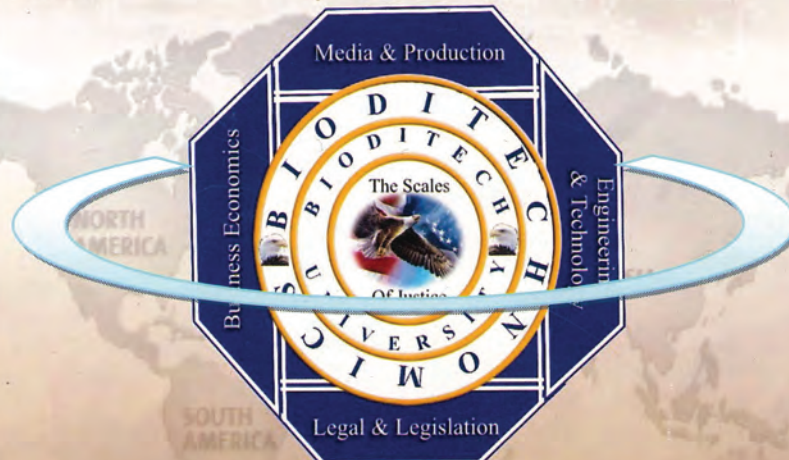

May God make the truth of His eternal purpose in Christ a subjective reality *in us*, and not just an objective doctrine *to us*!

May the Lord use this work to show the saints the greater depths that are in the Lord Jesus Christ and equip them for more effectual service in the realization of His glorious purpose.

A *corporate vision*—a vision that by necessity will bring God’s people into a cohesive unity and a fullness of Divine power. What is needed is a fresh breaking forth of heavenly vision into the hearts of all of the Lord’s children a vision that will govern them, sustain them, energize them, sanctify them, and unify them.

QUALITIES OF A

Highly Qualified Teacher

Highly qualified teachers vary from person to person but there are some qualities that keep coming up in the discussions such as knowledgeable, caring, enthusiastic, touchable or approachable, and fun. These are only a few of the characteristics mentioned. **JFI's Teacher's Academy** is dedicated to training, caring, competent and collaborative educators. Some characteristics of a highly qualified teacher should possess are love, peace, joy, long suffering, meekness, kindness, being prepared, using a personal touch, possessing a sense of humor, possessing creativity, admitting mistakes, being forgiving, respecting students, maintaining high expectations, showing compassion, developing a sense of belonging to students, and creating an environment that is inclusive of God. These characteristics reflect what JFI is accomplishing in our training.

JFI is capable of preparing us to be competent, collaborative professionals who are prepared for "The Market Place." It is up to each individual to take the responsibility to care. There are many competent professionals who know the subject matter and have outstanding training. Academically they are awesome, but they lack the caring piece. They feel that if they know the content, they don't have to care. We have a responsibility not only to excel academically, but also we must excel in caring. Nobody cares how much you know, until they know how much you care. What we do in a moment can impact a student for life. We must count the cost and decide if we are willing to do what will be best for the success of each student in our classrooms. No greater love than this that a man would lay down his life for a friend. It is not about how great we can be, it is about making someone else great. It is not about the creature, it is about the creator. JFI is creating an atmosphere inclusive of God where iron sharpens iron and the end product is God in "The Market Place."

WHAT IS THE END OF THE MATTER

A United Nation

The vision of the future of 2020 is a vision to see clearly what God's Original Intent was

“A Corporate Vision”
Vision of One

God has given us a promise in the vision of America

“While the stars remain, and the heavens send down dew upon the earth, so long shall the union last”

“The whole world united shall not prevail against her. Let every child of the republic learn to live for his god, his lord, and the Union”

Let us return to the Republic

“A United Nation”

How!

Small world for the whole world to establish a whole new world order out of a relationship with the living God.
